

## THE TRUCK LETTERING FONT

The Postal A's now have available for use by sign painters or decal manufacturers, the lettering font which was used by the Post Office for lettering the Model A Mail Trucks. These are for the letters U.S. MAIL only and do not have the numerals. These are in the correct format for computer programs generally used by people in the profession, and have both the non-shaded (outlined only) and shaded letters. Samples are shown below.
